

CF-SATA

InnoDisk CF-SATA has the same mechanical design with Compact Flash card and complies with Serial ATA by extracting unusual pins from CF50 pin. Hence, Compact Flash card and CF-ATA can share with one CF50pin socket.

Features

- Replace solution of CF
- 50pins SATA interface
- Support industrial grade up to 64GB
- High-reliability: anti-shock and vibration
- Excellent data transfer speed
- Support Thermal Sensor
- Optional write protect and security erase function

Specifications

Item	CF-SATA
Capacity	4GB~ 64GB
Interface	SATA II 3.0G
Connector	50 pin CF Connector
Data Transfer Rate	Read:120MB/sec.(max.)

	Write: 90MB/sec.(max.)
Operation Temp.	0°C~+70°C(Standard)/ -40°C~+85°C(Industrial)
Storage Temp.	-55°C~+95°C
Vibration(Operation)	20G(7~2000Hz)
Shock	1500G/0.5ms
Max. Power Consumption	1W(5Vx200mA)
Thermal Sensor	Supported
H/W Write Protect	Supported
SMART Function	Supported
ATA Security	Supported
Dimension(WxLxH)	36.40x42.80 x 3.30mm
