PMC Carriers

Acromag
THE LEADER IN INDUSTRIAL I/O

AcPC4620E CompactPCI Non-intelligent PMC Carrier Card (air-cooled)

This carrier card interfaces two PMC modules to a CompactPCI computer system.
Description

This board provides an easy and low cost solution that enables use of a PMC mezzanine I/O module in a standard 6U CompactPCI computer system. The carrier card acts simply as an adapter to route PCI bus signals to and from the PMC module through the CompactPCI card slot edge connector. All Acromag PMC modules and those from other vendors are supported.

This board uses a PLX Technology PCI6540 transparent PCI/PCI bridge for data transactions from the PCI bus (system host) to two PMC sites. The bridge device provides a 32 or 64-bit PCI interface with 33 or 66MHz bus frequencies.

Front and rear-panel access to field I/O signals are accommodated. The carrier card's front panel cut-out provides access to a PMC module's front I/O connector. Alternatively, all I/O signals can be routed through the carrier card's rear J3 and J5 connectors

An air-cooled rear transition board, Acromag Model TRANS-C4620, maps the field I/O on the PMC module to the rear of the CompactPCI system.

Features

■ 6U CompactPCI card

■ Holds two PMC cards

■ 32 or 64-bit PCI Interface at 33 or 66 MHz

■ Transparent PCI/PCI bridge for data transactions from the PCI bus to PMC module

■ Rear connection I/O access

■ Supports both 5V and 3.3V signalling

■ -40 to 70°C

Specifications

Environmental
Operating temperature: -40 to 85°C.

Storage temperature: -55 to 100°C.

Relative humidity: 5-95% non-condensing

Power (received from the CompactPCI 3U Back Plane):
 3.3V DC ($\pm$5%)*: 135mA typical, 150mA max.
 5.0V DC ($\pm$5%)*: 50mA typical, 70mA max.
 $\pm$12V DC ($\pm$5%)**: Per PMC module.
 * With no PMC module installed, $\pm$12V DC not used.
 ** Max. power 7.5W (total all supplies) per PMC standard.

MTBF: Call factory

Physical: CompactPCI Carrier Card
Physical configuration: 6U CompactPCI Card
 233.35 x 160mm.

Rear CompactPCI connectors: 2mm J1, J2, J3, J5 connectors.

PMC connectors: Eight 1mm connectors.

The air-cooled model (AcPC4620E) uses the standard front panel assembly with a PMC bezel cutout.

Physical: Transition Module
Physical configuration: Half-length 6U CompactPCI Card
 233.35 x 80mm.

Connectors: 2mm RJ2 connector which maps the rear I/O signals to a SCSI-3 connector. This model also uses a standard rear front panel assembly with a SCSI-3 connector cutout.

PMC and CompactPCI bus Compliance
Meets PCI specification version 2.3, CompactPCI specification PICMG 2.3 R1.0, and PMC specification P1386.1.

Meets PCI specification version 2.3, CompactPCI specification PICMG 2.3 R1.0, and PMC specification P1386.1.

Data transfer bus: Slave with 32-bit, 16-bit, and 8-bit data transfer operation.

Interrupts: CompactPCI bus INTA# interrupt signal.

PCI Interface: PLX Technology PCI6540 transparent PCI/PCI bridge for data transactions from the PCI bus (system host) to the PMC site. The bridge device provides a 32-bit 33/66 MHz PCI interface.

Ordering Information

Carrier Cards
AcPC4620E
 CompactPCI bus carrier card for two PMC modules, air-cooled

Accessories (see accessories documentation for details)
TRANS-C4620: Transition module

5028-432: Shielded cable, SCSI-3 68-pin connector, 2m long.

5025-288: Termination panel, DIN rail-mount, 68 screw terminals, SCSI-3 connector.

ACPC4620E

PMC 2 — J21, J22, J5, J23, J24
PMC 1 — J11, J12, J3, J13, J14, J2
