## Behemoth IPC with Intel Core i5 / i7 / Celeron CPU

### Features

#### Intel HM55 Chipset

Compatible with Intel Core i5 & i7 CPUs, this chipset offers support for high quality Intel graphics and other Intel technologies.

#### DDR3 memory

This product uses DDR3 RAM. DDR3 RAM has a transfer rate twice as fast as its predecessor (DDR2), which enables higher bandwidth.

#### Multi-screen support

This platform comes with multiple video-out ports and can support separate video streams on dual displays.

#### Integrated SIM card reader

Integrated in a mini-PCIe slot, the SIM card readers allow for users to enable 3G use for their IPC.

#### Expandable PCI or PCIe slot

The product has additional space for another PCI or PCIe expansion. Allowing customers to choose what type of expansion slot they need.

#### Easily replaceable fan

This appliance's fan is located outside of the chassis. This allows the fan to be easily replaced in the field without opening up the appliance.

### Wide voltage input range

This product supports a wider range of voltage inputs, allows for easier onsite implementation by lessening the need for an external power supply.

### Intel network controllers

The appliance uses top-of-the-line Intel NICs giving the customer the benefits of quality design and thorough engineering. SIM card readers allow for users to enable 3G use for their IPC.

### Terminal block connections

This product features serial ports utilize terminal blocks for its I/O ports. Terminal blocks can receive a multitude a different kind of wiring making these ports adaptable for different environments.

### Screw-locked power plug

This power plug is made to screw directly into the appliance chassis, allowing secure power connection in even the harshest of settings.
